Type: DOUBLE END TENONER
Brand: HOMAG
Model: FPL 226/5/25
Type: DOUBLE END TENONER
Brand: HOMAG
Model: FPL 226/5/25

Technical details:

Independent machine (standing alone) and/or Universal machine (First & Second in a line)

Electronic Programmer
Safety and sound-proof enclosure
No. 3+3 Vertical columns to support the working units

Min. useful working width (mm) 160 (ca.)
Max. useful working width (mm) 2500
Min. useful working thickness (mm) 10 (ca.)
Max. useful working thickness (mm) 60 (ca.)

Max. depth of the panel (mm) for automatic infeed 1250 (ca.)
Distance between center-axes of the disappearing dogs (mm) 1000 (ca.)
Adjustable (min/max) feeding speed (m/min) 8 - 32 (ca.)
Total installed power Kw 65

No. 4 Working groups (for each machine's side):
1 Jumping Scoring Unit (1 x Kw 2,2 ca.)
1 Hogging Unit (1 x Kw 6,6 ca.)
2 Jumping Milling Units (2 x Kw 4,5 ca.)
