Type: DOUBLE END TENONER
Brand: HOMAG
Model: Profiline FPL 526/4/25
Type: DOUBLE END TENONER  
Brand: HOMAG  
Model: Profiline FPL 526/4/25  

Technical details:

Independent machine (standing alone) and/or Universal machine (First & Second in a line)

Numerical Control Power Control 22, Software WoodCommander (Windows)  
Safety and sound-proof enclosure  
No. 2+2 Vertical columns to support the working units  

Min. useful working width (mm) 155  
Max. useful working width (mm) 2500  
Min. useful working thickness (mm) 12  
Max. useful working thickness (mm) 60  

Max. depth of the panel for automatic infeed (mm) 1200  
Distance between center-axes of the disappearing dogs (mm) 500  
Adjustable (min/max) feeding speed (m/min) 10 - 30  

No. 4 Working groups (for each machine's side):  
1 Vertical milling Unit (Anti-chipping) 1 x Kw 4,5  
2 Hogging Units (KD 11) 2 x Kw 6,6  
1 Fine trimming unit (0°-25°) 2 x Kw 0,4
